

SONOROUS[®] | ELEMENTS

SONOROUS[®]

At Sonorous, we believe your entertainment system should be complimented by specialist AV (Audio Video) furniture that displays your TV, not your wires. It should also be totally functional, giving an accessible yet discrete and bespoke home to your entertainment system. Choose confidently from our contemporary designs that will compliment your personal style and the carefully selected furnishings in your home.

ELEMENTS MULTIMEDIA CABINETS

ELEMENTS brings Sonorous design, creativity and styling to a new level. A modular concept that displays and discreetly stores all your Audio / Video equipment right at the heart of your living space.

Special attention has been given to provide discrete and practical storage for all your home entertainment, yet meet the style and design requirements of the most carefully furnished home.

Contemporary designs of lacquered tempered glass and wood are at the core of Elements. The concept is simple and convincing. Quality without compromise.

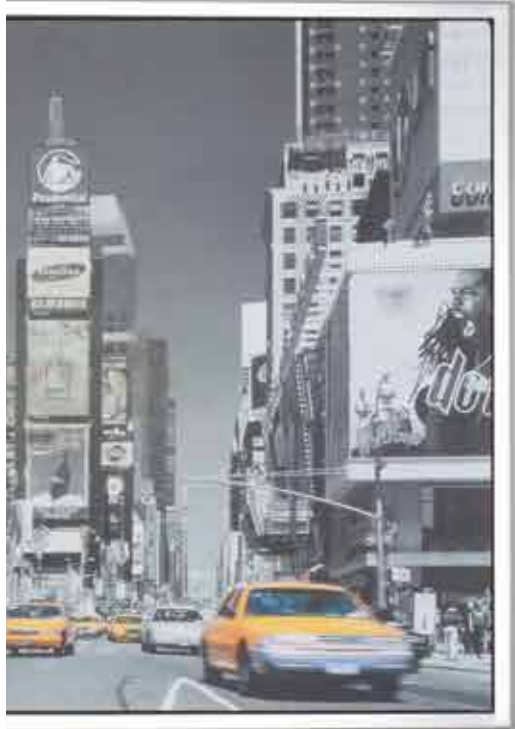

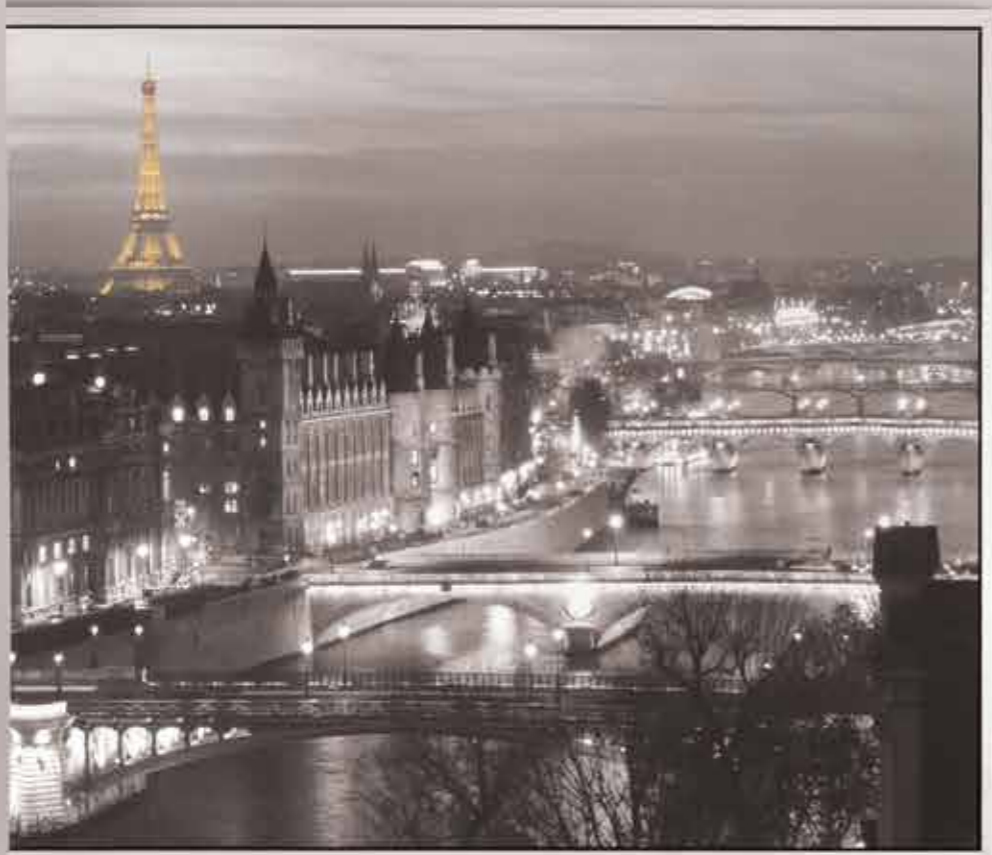

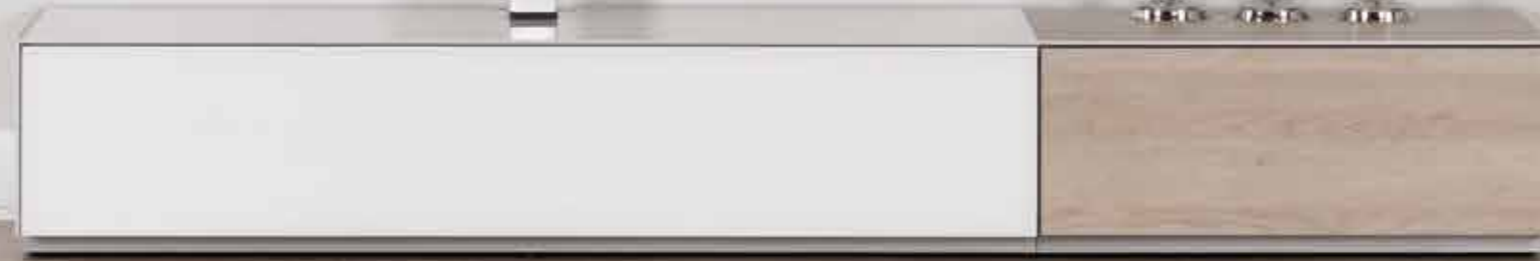

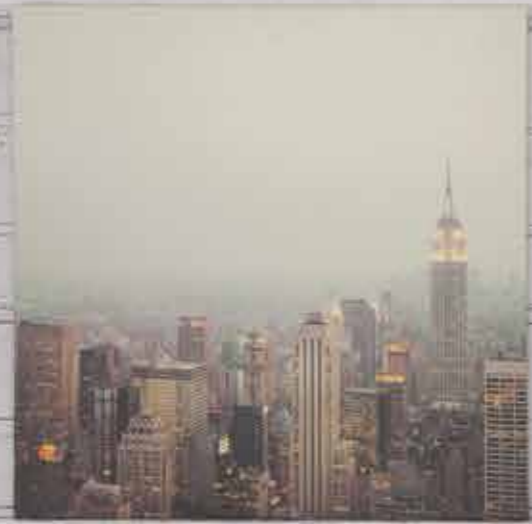

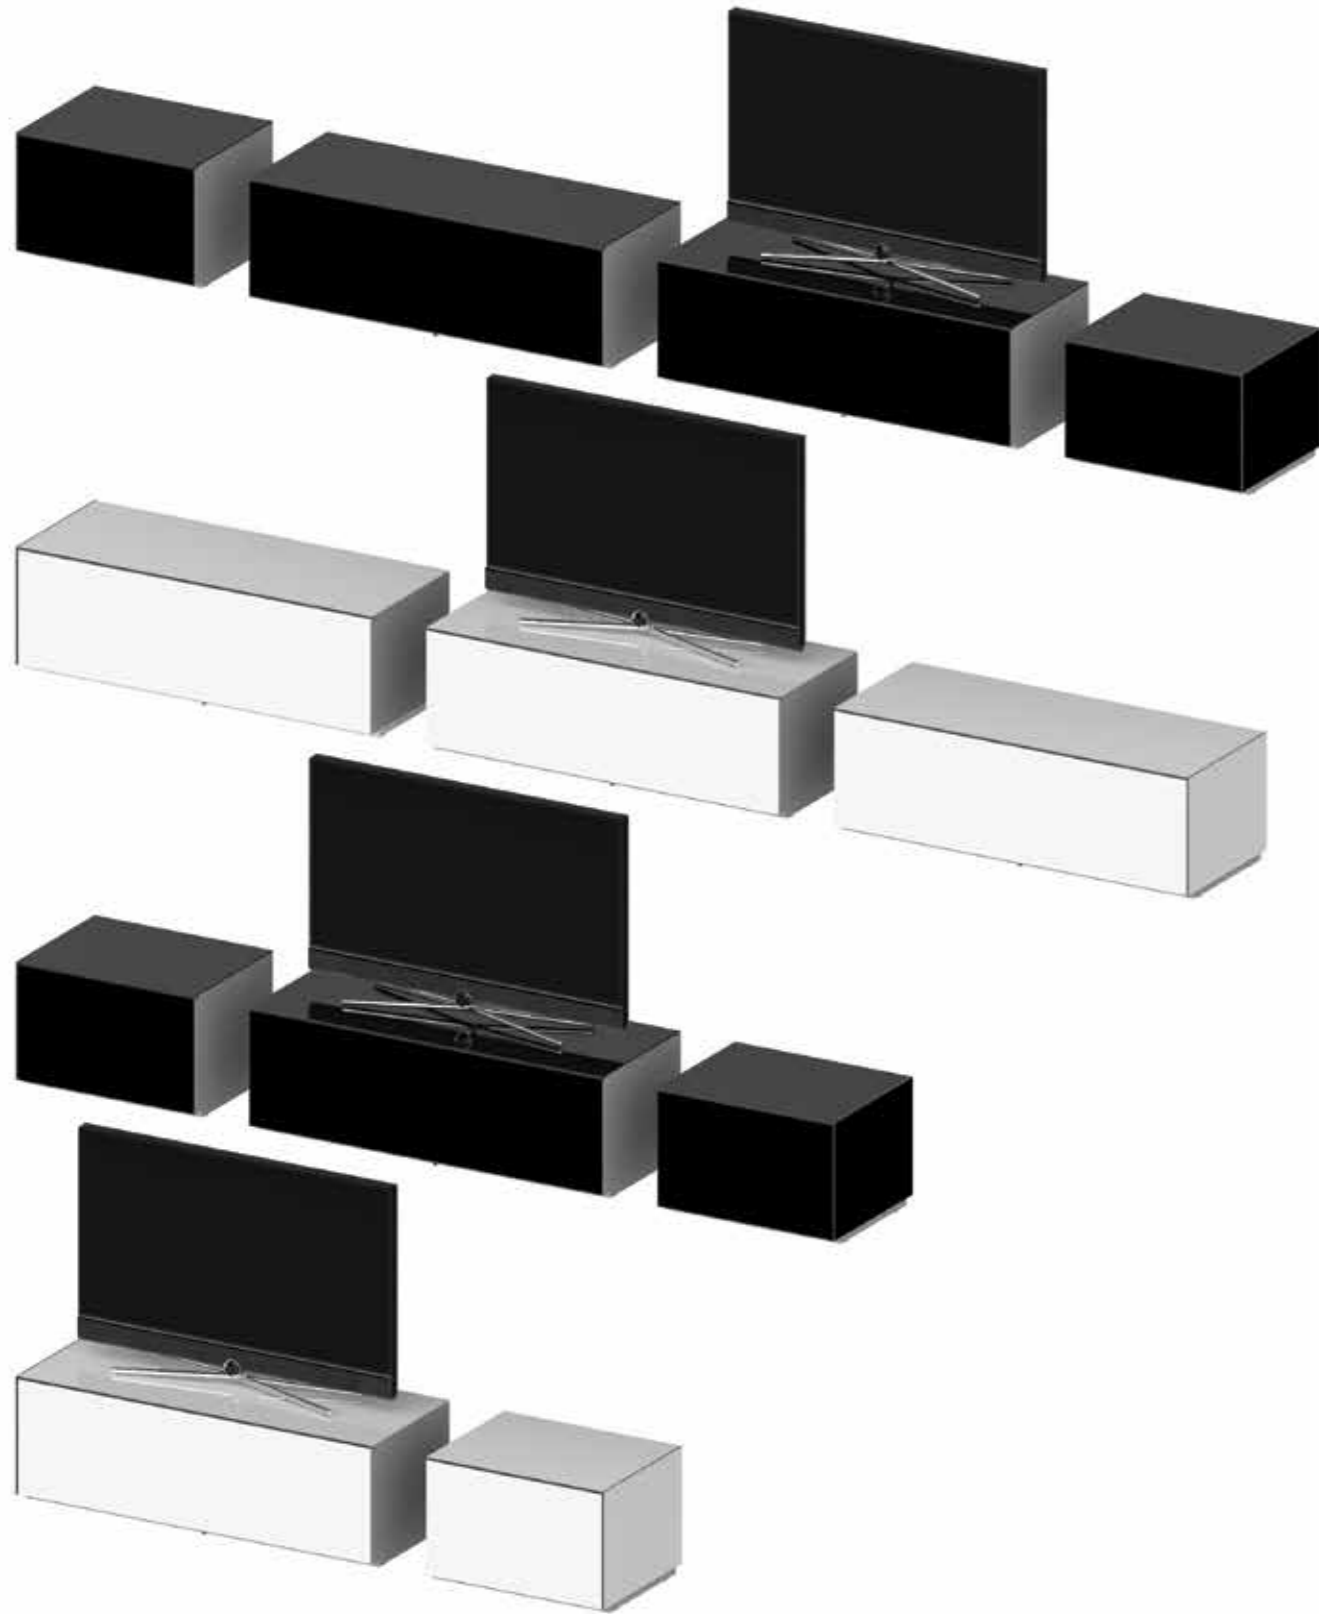

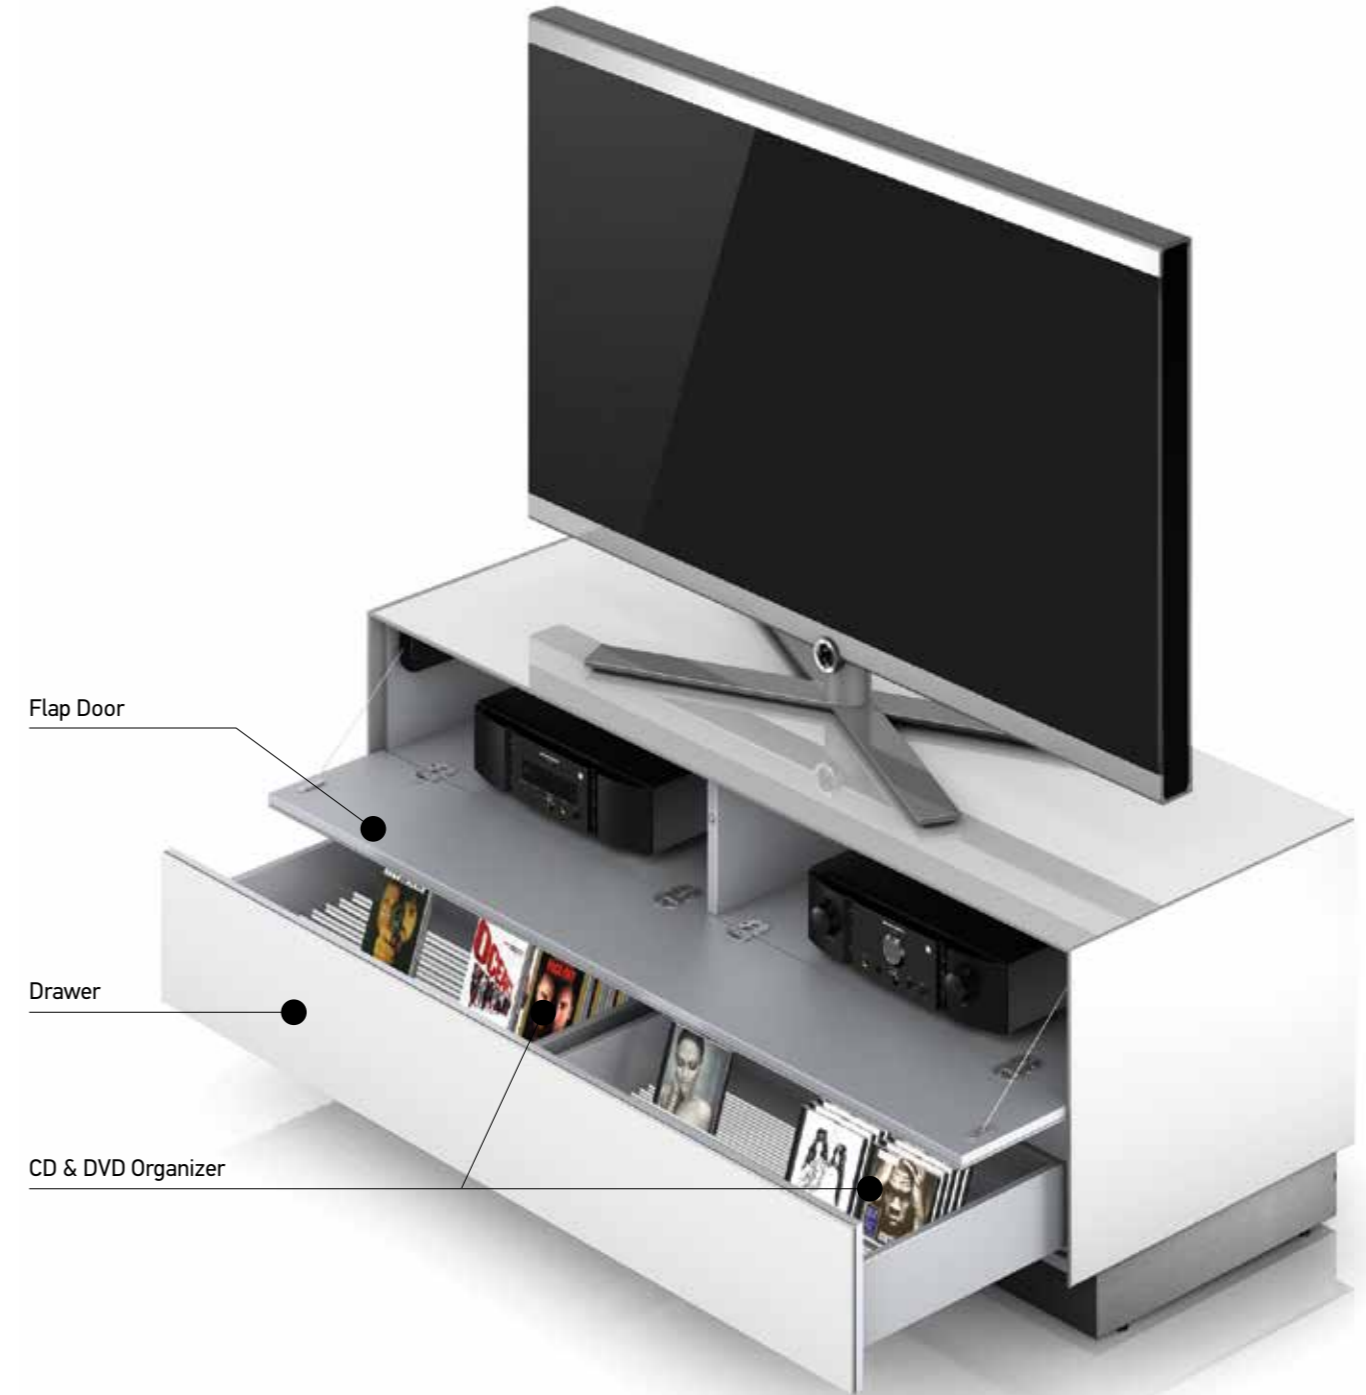

DRAWER SLIDES & FLAP DOORS

High-quality flap mechanisms ensures soft opening and closing. Drawers incorporate high performance and luxury "push to open" mechanisms

MODULAR CONSTRUCTION

Modular design for exceptional freedom to meet your personal requirements. Modular construction allows you to arrange cabinets as you require, floor standing, attached to your walls, or both, you decide. A system of specialist furniture that combines elegance, technical performance and perfection.

CD & DVD ORGANIZER

Anodized aluminium CD and DVD storage can be integrated into drawers.

ACOUSTIC FABRIC

DVD Player, set top box, amplifier, media players and game consoles can all be stored behind flaps which are covered with acoustic fabric. Designed to ensure adequate ventilation so your devices don't overheat.

A sound bar, loudspeakers and subwoofers can be placed and operated, hidden from view, without affecting performance.

IR REPEATER

Control all your equipment with your remotes, yet keeping it out of sight. Our Infrared Repeater system relays remote control signals to your equipment within the cabinet.

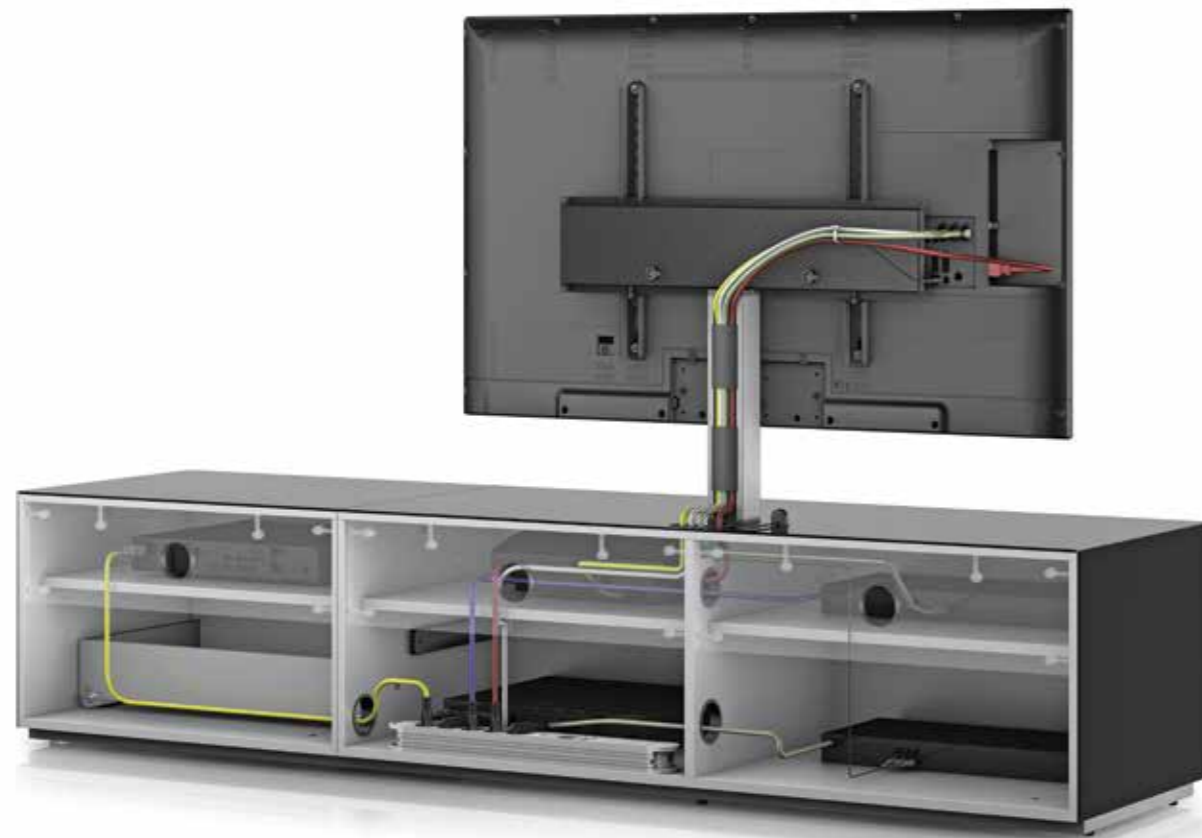

ROTATING MOUNT

Brushed anodised aluminium profile is used for TV mounting and provides rotating and an integrated cable management system.

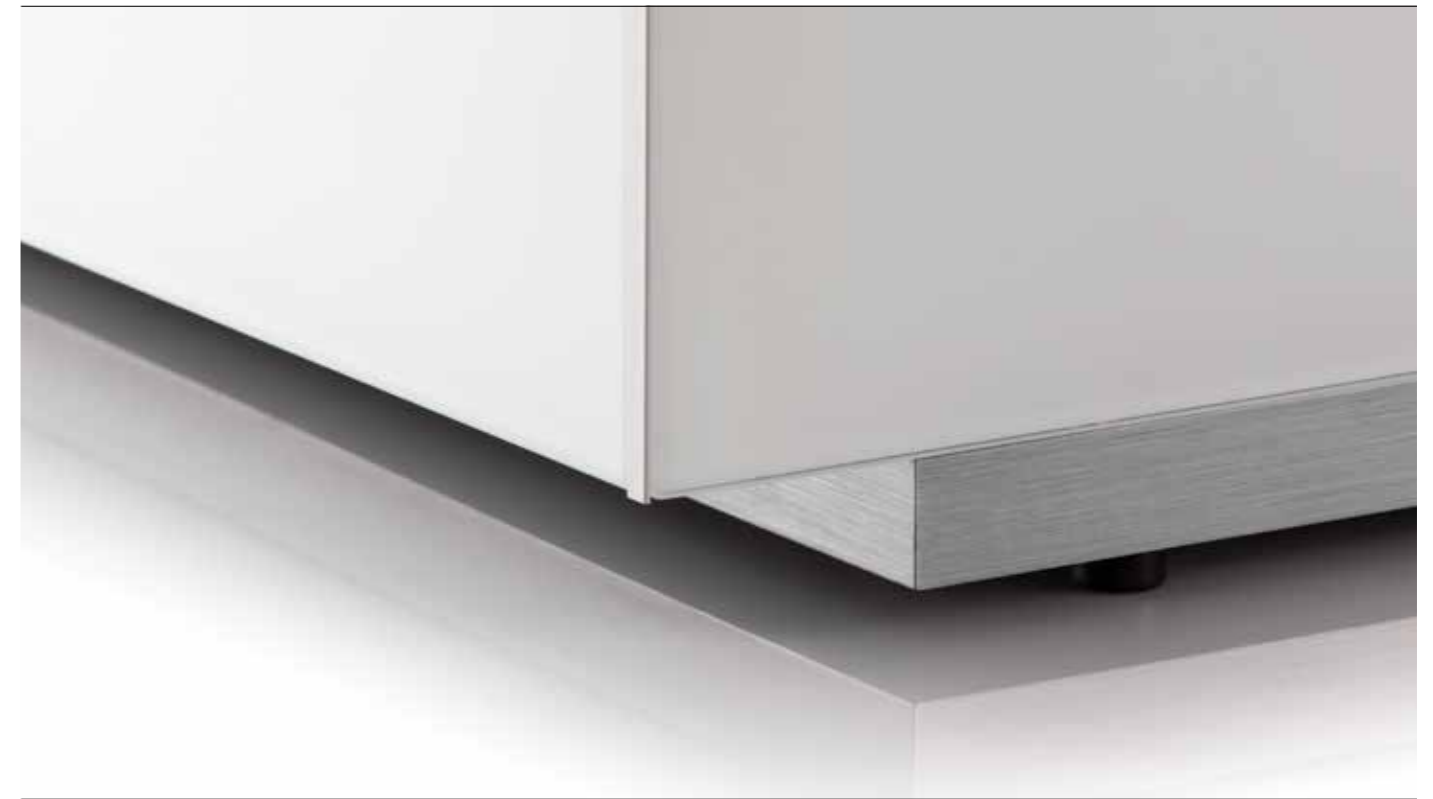

CABLE MANAGEMENT

Cables are an essential part of your system, but you don't want to see them. Multiple and discrete horizontal and vertical cable channels make for easy access for cabling through shelves whilst keeping them out of sight within the cabinet.

ELEMENTS SIDEBOARDS

Sonorous introduces **SIDEBOARD** , a new cabinet system designed by Sonorous

The body come in four different width and two different height with doors, flaps and drawers . By playing with different colors and materials (Glass and Wood) and Layout you can create your own cabinet.

The different boxes are put next to each other with a continuous delicate glass on top
Sideboard is available in both standing on wood base or a metal frame.
